

HOW DO YOUR Sacrifices Compare With THESE

The American boy who goes to war gives up the position which means so much to his future, or the little business which has just begun to show promise of success.

He severs home ties; gives up home comforts; leaves behind parents, friends, wife or sweetheart.

He faces the probability of being obliged to take up life anew when he returns; of losing all the advantages which years of hard work have won for him.

He faces the possibility of coming back incapacitated for earning a living, and of being dependent upon his friends or upon charity.

He faces the possibility of never coming home at all.

Facing these things, he goes to France to fight for us who remain safely at home--and when the moment comes to go over the top--he GOES.

What will he think, how will he feel, if we complain because we are asked to make a few sacrifices for him--sacrifices so insignificant when compared with his?

Show him that to invest in LIBERTY BONDS is not a SACRIFICE but a PRIVILEGE--an appreciation of his SACRIFICE!

BUY A BOND TODAY

Lex Ripetoe, of Cookeville passed here Monday on his way to Whitleyville.

If you desire to help your government defeat the Huns buy some of the Third Liberty Loan Bonds.

If you know any news report it to L. M. Myers.

STOP INDIGESTION WITH VIN HEPATICA

There's not a bit of use in your having to be aggravated with a sour stomach, or suffering from a heaviness in your chest or stomach after every meal you eat.

That's indigestion. And, if let run on, more serious complications are sure to arise, and the first thing you know you are in a mighty bad fix. It upsets the whole system, throws you all out of gear.

Get yourself a bottle of Vin Hepatica prescription, and take plenty of it. It goes right to the seat of the trouble at once. It is nature's own prescription for the relief of indigestion and other disorders of the stomach, kidney liver and bowels.

Come in and get a bottle on our recommendation.

L. B. Anderson, Gainesboro.

How Soldiers Can Secure A Furlough For Farm Work.

It is announced that a new draft of about 90,000 men per month will be called during the remainder of this year, and the Provost Marshal General has ordered that "Men actively, assiduously and completely engaged in the planting or cultivation of a crop, but who are listed in Class 1 of the draft and come within the new quota, should be deferred until the end of the new quota."

To get the benefit of this new call it is necessary that the men under it make affidavits supporting their claims. Farm boys should immediately execute, and file with their local boards, affidavits showing that they are completely engaged in the planting and cultivation of a crop. Such affidavits should be signed by two or three neighbors who have personal knowledge of the work in which the man is engaged.

Young farmers should attend to this at once. Those who fail to file affidavits showing proof that they are wholly engaged in farm work will not be exempted or deferred if their turn should come in filling this quota.

And farmers whose sons and hired hands are in this Class 1 should have no hesitation in themselves making out and filing such affidavits, and they should lose no time in doing so.

Form 1055, Provost Marshal General's Office together with Form 66, which explains its use, may be obtained from the Local Board. Farmers whose sons or hired men have already been called to camp, and who wish them released on furlough for farm work, should at once secure a copy of Form 1035, execute it, and send it to the commander of the camp where his son or hired man is now located.

It should be noted that furloughs will not be granted to men who have not attained a rank above that of first sergeant, that such furloughs will be for short periods only and largely for seeding and harvest times; and all furloughed men will be recalled when their regiment is ordered overseas.
